

# Field trip Information and registration

The field trip information (1) and risk assessment (2) sections are to be completed by the leader in advance of the trip. The generic risk assessment table (2) should be customised to cover the specific risks relevant to the trip.

Attendees should read and understand the risk assessment (2) and the rules (3). The field trip register (4) is to be completed by each individual attending.

## 1. Field trip information

Title of field trip; geological theme(s)	Wrynose to Blea Tarn The Langdale Caldera Margin
Date of field trip; start time; approximate duration.	16 September; 4-6 hours
Name of field trip leader(s)	David Haselden
Start point and its National Grid Reference; also end point if different from start.	Meet at Blea Tarn NT car park NY 2956 0432, consolidate cars then start excursion at Wrynose Pass Three Shires Stone NY 2772 0275. The excursion will finish at Blea Tarn NT car park
Parking and transport information	Park at Blea Tarn NT car park
Description of terrain to be covered	Pathless open fell, boggy in places, some easy scrambling to access exposures
Approximate distance to be covered, metres of ascent / descent	5km, 300m of ascent, 450m of descent
Assessed severity of field trip	Medium
Special requirements; refreshments; other observations	There are no facilities on the excursion route
Nearest hospital with A&E	Whitehaven

Note: If action or advice is needed from the CGS Designated Safeguarding Officer regarding this field trip, contact details are available from the members' area of the CGS website or any Council Member.

## 2. Risk assessment

Potential hazard	Risk level– High/Medium/Low	Safety measures
<b>Navigation, route, conditions</b>		
Poor / deteriorating weather; risk to party completing the route. *	Low	Low level alternative to Side Pike is offered if weather is too poor.
Poor visibility or navigation error; risk of the party getting lost or separated. *	Low	Low level alternative to Side Pike is offered if weather is too poor.
Loss of daylight; difficulty of completing the route safely and on time.	Low	Excursion is only 5k and can be completed well within the day
<b>Slips, trips and falls</b>		
Steep or exposed ground; uneven rocky ground underfoot: risk of slips/trips/falls; anxiety or vertigo	Low	Some steep ground; good footwear required
Condition of paths and stiles: risk of slips/trips/falls/barbed wire	Low/med	Assistance will be provided to negotiate stiles etc
Boggy or heavily vegetated ground; risk of slips/trips/falls	Low/med	Good footwear required
Forestry or wooded areas; risk of slips/trips/falls or injury by branches	Low/med	Good footwear required
<b>Health and wellbeing</b>		
Attendee becoming unwell and needing assistance*. Including hypothermia, sun exposure and bites by ticks, insects or snakes	Low/med	Ticks may be a hazard; wear long trousers and/or check for ticks at end of trip Wear clothing suitable for the conditions
<b>Other typical risks</b>		
Roads; risk to pedestrian attendees from traffic.	Low	Be vigilant for traffic on Wrynose Pass
Rockfall, or fall of other debris from slopes.	Low/med	Vigilance and care on steep ground
Water courses, open water, tides; drowning risk; crossing risks of slips/trips/falls	Low	Minor stream crossings only
Livestock attack: cows, bulls.	Nil	
<b>Other</b>		

\* Weather-related risk level to be reviewed at the time of the field trip.

Signature of field trip leader .....

### 3. Rules

1. Members of CGS and guests take part at their own risk. They should read and understand the foregoing field trip information and risk assessment, and raise any queries about any matter of concern before the field trip starts. A brief introduction will be provided at the start point. It should be noted that the Society holds Third Party Public Liability Insurance for Society members, but this does not extend to visitors undertaking field trips. Personal Liability Insurance and Personal Accident Insurance remain the responsibility and choice of the participant. The Society does not accept responsibility for loss or damage to individuals or their property.
2. Participants should be aware of potential hazards which may be encountered in the field. They should read the Risk Assessment prepared in advance of each field trip and sign the field trip register on arrival. In general, these hazards will be such as are commonly encountered on the hills, open countryside and coastal and riverine areas in Cumbria, and participants will be expected to be familiar with these.
3. The behaviour of all members of the field trip must be such as to minimise the risk to themselves and other attendees. Any participant who behaves in a manner likely to put at risk his or her own safety, or the safety or enjoyment of another participant or the group as a whole, may be asked to leave by the field trip leader, and must do so immediately.
4. It is the responsibility of participants to satisfy themselves that they are fit to take part in the field trip and are properly equipped to do so. They should inform the field trip leader in advance, in confidence, of any matter which may have a bearing on their fitness to participate and what actions should be taken if illness occurs. The field trip leader may refuse to allow any person whose health or fitness appears to be a source of concern, or who appears to be inadequately equipped, to participate in (or to continue participation in) a field trip. There is no guarantee that any participant will have had first aid training but, in any emergency, the group will help as best it can.
5. Under 18s and vulnerable adults may attend if they are accompanied by a parent, guardian or responsible adult, provided that this is indicated in the Field Trip Register.
6. Participants should wear clothing and footwear suitable for the field trip and carry appropriate safety equipment and rations.
7. The instructions of the field trip leader should be followed. It is important to stay with the leader during the field trip. Racing ahead or lagging behind causes problems of safety as well as making the leader's task more difficult. Alert others if a problem arises; if you need to stop, let at least one other person know. Members must make their intentions known to the leader if they intend to leave the group either temporarily or permanently; it is recommended that this is not done alone, particularly in remote or rugged terrain.
8. In the interests of conservation and safety the use of geological hammers is discouraged. Some exposures may be SSSIs or have other designations, and in any event the permission of a landowner may be required
9. If an injury or other problem occurs the field trip leader should be notified immediately.
10. Dogs do not normally take part in a field trip. A participant who wishes to bring a dog on a field trip should confirm beforehand with the field trip leader that this will be acceptable.
